TECHNOLOGIES

POSEIDON 8

industrial cold water high flow pressure washer

ST Version

- **High Pressure and High Water Volume**
Efficient and quick cleaning, whatever the application. The high pressure is ideal for tough dirt. The high water flow gives optimal rinsing and flushing effect.
- **Durable Robust Frame**
Available in either a steel or stainless steel frame for use in the most demanding environments.
- **Soft Start System**
Ensures that the motor gradually reaches its full speed - therefore protecting the mains supply and avoiding blown fuses.
- **Pump Oil Sight Gauge**
Makes it easy to check the oil level for the pump without dismantling the machine.
- **Full Ceramic Piston Pumps**
Ensures long working life, with a slow running 1450rpm motor.
- **Quick and Easy Set Up**
With the professional inlet coupling it could not be easier to connect the hose to the machine.

PNEUMATIC WHEELS

The large, wide pneumatic wheels make the POSEIDON 8 very stable and easy to move across uneven ground. The parking brake ensures that the machine can be positioned safely.

OPTIONAL ACCESSORIES (see product catalogue for further accessories)

Powerspeed Lance

Rotating pencil jet for fast and highly effective cleaning of stubborn and encrusted dirt.

Hose Reel

Hose reel can be mounted to the machine, reducing machine set up time and improving storage.

Foam Lance + Injector

Ensures a thick and consistent application of foam on all surfaces which increases the efficiency of the chemical.

Coupling Connection

Connector to enable two operators to work simultaneously.
